Look who carries the weight of the world.

Northwest Cargo.
No other airline carries freight to so many cities. In fact, we're the largest combination carrier of air freight in the U.S.A. Every day, we fly 1.1 billion ton miles of freight to three-fourths of the world. We fly air freight on 311 aircraft, including 58 747's and DC-10's, and six 747 freighters.
So if you're looking for someone who really carries their weight, look to Northwest.

Look to us.
