**In the event of an emergency in which a crewmember is not available to assist, a passenger may be used to perform the following functions:**

1. Locate exit;
2. Recognize exit opening mechanism;
3. Comprehend exit operating instructions;
4. Assess whether opening exit will increase hazards;
5. Operate exit;
6. Follow oral directions and hand signals of crewmember;
7. Secure exit door so as not to impede use of exit;
8. Assess condition of escape slide, activate slide and stabilize slide after deployment to assist others in getting off slide;
9. Pass expeditiously through exit; and
10. Assess, select and follow safe path away from exit.

Thank you for your assistance in helping us comply with Delta Connection procedures and Federal Regulations.

Final assembly of this airplane was completed in Brazil.

**DO NOT REMOVE THIS CARD FROM THE AIRPLANE.**
