**STEAMBOAT IS ONE OF THE
EASIEST SKI AREAS IN THE
WORLD TO GET TO!**

Steamboat has the closest major airport of any ski resort in Colorado or Utah . . . the Yampa Valley Regional Airport at Hayden, 22 miles from the ski area.

A Whole New Mountain Area, More Terrain, and a New Lift. More than \$8 million in improvements this year.

More skiing. More snow. More lifts. More trails. What more could you ask for? One of the biggest ski mountains in North America is getting bigger and better this year, thanks to the continued expansion of Pioneer Ridge. We're opening 12 new trails this season — bringing our total to 140. This new expansion will open up new gladed skiing as well as some of the most challenging terrain on our mountain. To help service all this new acreage, we've added The Pony Express, a high-speed quad chairlift. And as if we don't get enough snow already, we're expanding our state-of-the-art snow-making system to ensure quality snow top-to-bottom, opening day through the last ski day in Spring.
