ULD General Information

► There is no charge for the tare weight of a container furnished by Northwest.

► ULD equipment can be released to customers for use on Northwest flight segments provided the ULD equipment is returned to Northwest within 48 hours of its release.

► ULD equipment with inbound international cargo is permitted the first five business days and the first weekend (SA/SU) as free time before any ULD demurrage charges begin to accrue.

► Northwest has ULD agreements with over 50 carriers around the world. This allows the shipper-loaded ULD to be transferred intact for transport on another member carrier's system when the final destination is not a Northwest location.
