## IMPORTANT INFORMATION

### Check-In

In the interest of on-time service to all passengers, Big Sky Airlines requests that passengers be at the airport counter 30 minutes prior to published departure time. Reservations not claimed 10 minutes prior to scheduled flights are subject to cancellation.

### Reservations

Big Sky Airlines does not intentionally overbook flights. Please cancel your reservations if you plan to change or you are unable to use them for any reason. There are many customers desiring confirmed seats that cannot be accommodated. **If you are a no-show on the first leg of your trip, the rest of your Big Sky itinerary will be cancelled.**

### Reconfirmation

Please reconfirm your reservation after a stopover of more than 12 hours. Re-confirmation is necessary at least 6 hours before departure in order to assure your reservations.

### Schedules and Responsibility

Big Sky Airlines will not be responsible for damages resulting from the failure to depart or arrive at times stated in this timetable, nor for errors herein, nor for failure to make connections with planes of other airlines or of this company. Safety is our primary consideration. Schedule times published include allowances for variations in wind direction and wind velocity, planned ground movement of the aircraft between runway and gates and similar factors to assure gate arrivals within 15 minutes of published schedule. Schedules do not allow for abnormal air traffic and ground delays which cannot be forecast in advance.

### Baggage

The maximum free baggage allowance for a farepaying passenger will be three (3) pieces of which 2 will not exceed 70 pounds each and the following dimensions:

- 1st piece—62 dimensional in. (length + width + height)
- 2nd piece—55 dimensional in. (length + width + height)
- 3rd piece—45 dimensional in. (length + width + height)

### Restricted Articles

Articles such as flammable liquids, corrosives, acids, compressed gases, matches or other hazardous articles must not be placed in baggage. (In addition, Federal Aviation Regulations limit the carriage of compressed gases in aerosol cans, such as hair spray, shaving cream, and deodorants, to 32 ounces per passenger with a maximum of 16 ounces per container.) "Visible Fluid" lighters may not be used on board aircraft. AM and FM radios, TV receivers and other electronic devices must not be used on board aircraft in order to avoid disturbance of the aircraft's electronic navigational equipment. Portable electronic devices such as voice recorders, hearing aids, heart pacemakers and electric shavers will be permitted.
